

## Action Planning for Short Term and Visible Goals

Based on your view of the future and building on our existing skills choose one area from your '6 months better' in the January field-assignment that you will make progress on over the next 2 months.

Those you lead, support, work with and / or yourself will see or feel a difference with the implementation of this progress step.

### Things to Think About

1. You and your team are the resources for change and growth.
2. Include any groups and/or activities and whether you need to communicate your plans with others.
3. Think about how you will notice progress.

1. My goal and what it will look like when I've accomplished it?	4. With whom do you see yourself collaborating and communicating with to help make this happen?
2. How do you see this helping those you lead, support work with and / or yourself?	5. When? What time frame for the actions you have set up?
3. Where will we begin? What will be the first visible steps?  A.  B.  C.	6. How will you be communicating progress?
